## Hydra Dermabrasion Facial

This treatment extracts impurities, removes dead skin cells, and bathes the skin in cleansing, moisturizing, hydrating serums. Treatment is soothing, refreshing, non-irritating, and effective immediately. It addresses and visibly improves the appearance of: Fine lines and wrinkles, Elasticity and firmness, Skin texture, Skin tone and vibrancy, Enlarged pores, Oily and congested skin.

60min \$150

## Radio Frequency Skin Tightening Facial

An immediate face lift using radio frequency. RF energy has special properties that heat up deeper layers of the skin to improve existing collagen and promote new collagen production. Also enhances blood circulation and brings out the skin's hidden, natural glow. This treatment will tighten the skin, reduce wrinkles, and eliminate dark circles and relieve puffy eyes. An amazing treatment that will leave you with younger looking skin.

60min \$150

### Package Option:

5% OFF when you buy the package of six (5) treatments • 10% OFF when you buy the package of ten (10) treatments

## Facial Option

### 1. Diamond Microdermabrasion

For anyone looking for smooth and plump skin, this treatment enhances the overall texture of the skin by exfoliating and removing dead surface skin cells, and speeds up cell turnover. It minimizes acne scars, tightens pores, and brightens the skin. Regular treatments stimulates the skin's ability to regenerate collagen which reduces fine lines and wrinkles, and gives you firmer, plumper skin. By boosting the skin's metabolism, this treatment also works to lighten blemishes and dark spots.

### 2. LED Light Therapy

A comprehensive treatment for your skin, this LED light therapy mask with Galvanic current allows nutrients to penetrate deeper into the skin. The absorption rate of the nutrients is 190 times better compared to patting by hands. As a true multitasker, this treatment is effective for fading age spots, improving elasticity, reducing the appearance of fine lines and wrinkles, calming redness, and brightening of the skin tone. It also improves existing acne as well as prevents breakouts by killing acne-causing bacteria.

### 3. Microcurrent

This face lifting treatment leaves your face looking more firm and rejuvenated. It promotes new collagen growth by stimulating skin cells and facial muscles. The treatment promotes detoxification by increasing blood circulation and boosting lymphatic drainage. Microcurrent is great for reducing the appearance of fine lines and wrinkles, and it works for concerns such as double chin, puffy face, and sagging skin. (The effects lasts for about 48 hours, making this perfect prep before special events.)

### 4. Oxygen

This treatment delivers immediate hydration and is suited for mature skin. Pressurized stream of oxygen and serum is infused into the skin for deep hydration. Oxygen also protects the skin from UV rays and increases blood circulation resulting in improved complexion and brighter skin tone. It reduces the appearance of fine lines and wrinkles, leaving you glowing and revitalized.

### 5. Ultrasound

Concentrating on deep pore cleansing and purifying. It gently heats the deepest layer of the skin thus stimulating the skin's natural ability to produce collagen and increase the skin cell turnover. Helps to loosen and remove oil, dirt and cellular debris from follicles for a clean and healthy skin.

### 6. Electroporation

This cutting-edge technology is great for anti-aging. By infusing nutrients such as collagen and hyaluronic acid deeper into the skin, it hydrates the skin from within for a longer period of time. It is also effective in reducing dark spots, the appearance of fine lines and wrinkles and sluggish skin. Wonderful treatment for most skin types.

### 7. Glycolic Peel & High-frequency

This treatment improves acne, clogged pores, and general dullness. Glycolic acid exfoliates and extracts wastes and toxins accumulated deep within the skin, leaving your skin clear and glowing. This high-frequency machine exerts antibacterial effects while soothing redness and inflammation. This treatment works to balance your skin, making it less acne-prone in the long run.

\*Only one of Facial Option (with No Facial) 20min. \$55

## Facial Addition

Glycolic Acid	\$15
Ampure	\$5
Aromatherapy Facial Massage	\$20
Eye Treatment	\$15
Neck and Decollete Treatment	\$25
Extraction	\$20

## Green Peel

The Herbal Deep-Peeling is a medically developed skin regeneration with only pure natural plant ingredients, which has proven as a highly safe and successful method of a non-surgical procedure. It increases the blood circulation of the skin and causes the upper layers of the skin to peel off. The simulated blood circulation intensifies metabolism and increases the regeneration of the skin by producing new cells and collagen fibers.
